RULES.

1. (i) A candidate who desires to appear at the examination shall apply to be admitted to the examination before such date and in such form as the Federal Public Service Commission may prescribe. The application shall be made through the Collector or Deputy Commissioner of the district in which his parents reside at the time of the application, or have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at an educational institution only, for a like period.

(ii) In the case of Calcutta, applications shall be submitted through the Commissioner of Police.

(iii) Cadets of the Prince of Wales's Royal Indian Military College, Dehra Dun, shall submit their applications through the Principal of the College.

(iv) A candidate resident in an Indian State shall submit his application through the Durbar, who will forward it to the Political Officer or Agent.

(v) No candidate shall make more than one application in respect of this examination.

(vi) A candidate shall, except in very exceptional circumstances, appear personally before the District Officer or the Political Officer or Agent who signs the attestation form.

2. A candidate must be an unmarried man and either—

(b) a Ruler or a subject of a State in India or a British protected person of the tribal areas.

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

3. A candidate must furnish a declaration from his father or guardian, in the form prescribed, that the latter is in a position, and will be prepared to discharge the financial obligations attaching to the candidate's training for appointment to the Royal Indian Navy. Should it be found that the declaration in regard to discharge of financial obligations during the period of training is false in any respect, the candidate will be liable to immediate removal.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor-General in Council, be limited to such number as the Governor-General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Federal Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers in the Royal Indian Navy.

5. A candidate for this examination must have been born not earlier than the 2nd May, 1919 and not later than the 1st May, 1921.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Royal Indian Navy. A candidate who after examination by a Medical Board is found not to satisfy these requirements will not be accepted for admission to the Service.*

*Only successful candidates will be medically examined. Candidates are recommended to consult a Civil Surgeon as to their physical suitability before entering for the examination.

7. A candidate must satisfy the Federal Public Service Commission that he is suitable in all respects for employment as a commissioned officer in the Royal Indian Navy.

8. The decision of the Federal Public Service Commission as to the eligibility or otherwise of a candidate shall be final.

9. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Federal Public Service Commission.

10. Any attempt on the part of a candidate to enlist support for his application will disqualify him for admission to the Royal Indian Navy.

11. Candidates must pay the following fees

- (i) Rs. 7-8-0 with the application form,
- (ii) if accepted for admission to the examination, Rs. 50 immediately after the receipt of the certificate of admission.

- (b) the small lid or covering of a shaft covering operated by the rope cappel; and
- (c) temporary structures, supports and coverings at the top of shafts which are in the course of being sunk:

Provided further that until 30th April 1940 this sub-regulation shall not apply to wooden headgears which were in use on the date on which this sub-regulation came into force.

(2) All air-crossings in main intake or main return airways and all ventilation or separation doors in any fan house or fan drift and in the vicinity of shaft bottoms or air-crossings in main intake or main return airways shall be constructed of non-inflammable material and shall be designed, as far as practicable, to prevent leakage.

87D. (1) No person shall light a fire or deposit ashes or heated material in any coal quarry, or on any exposed outcrop of coal, or on any ground damaged by the extraction of coal in which open fissures or cavities exist.

(2) No person shall light a fire or permit a fire to be lighted in any underground part of a mine:

Provided that nothing in this sub-regulation shall apply to the use in a mine to which regulation 123 does not apply, of blow lamps or electric repairing apparatus if permitted by a special written order granted by the manager of the mine. The order shall specify the person who shall be in charge of the blow lamp or apparatus and shall require such person to bring it back to the surface when no longer required.

(3) No person shall light a fire or permit a fire to be lighted within a distance of 40 feet from the perimeter of any shaft except in accordance with a written order granted by the manager of the mine and only for a special purpose specified in such order:

Provided that this sub-regulation shall not apply to boilers other than vertical boilers.

(4) All such orders shall be recorded in a paged book kept in the office of the mine.

(5) No person shall ignite a "feeder" or an accumulation of gas.

87K. No excavation shall be done in any part of a seam lying under any part of another seam which is on fire or is believed to be on fire or which is connected by a goaf or by broken strata to any fire except by a method which will maintain the strata between the seams *in situ* and intact.

87L. (1) On the appearance in any part of a mine of smoke or other sign indicating that a fire has or may have broken out all workmen other than those whose presence in the mine is deemed necessary for dealing with the emergency shall be immediately withdrawn from the mine. No workmen, other than the men required for dealing with or damming off the fire, shall be re-admitted until either the fire has been extinguished or the part in which it exists has been effectively dammed off and an examination has been made by the manager and the competent person appointed under regulation 72 and the mine has been reported to be safe. Every such report shall be recorded without delay in a paged book, which shall be kept at the mine for the purpose and shall be dated and signed by the manager and the competent person who made the inspection:

Provided that, in a mechanically ventilated mine in which the use of safety lamps is not required other than for inspection purposes, this regulation shall apply only to the ventilating district or districts, that may be affected.

(2) The examination required by sub-regulation (1) shall be made with an approved locked flame safety lamp and a cage containing small birds or other means of detecting carbon monoxide gas approved by the Chief Inspector. No additional light shall be used other than an approved electric torch or lamp.

87G. (1) Approved locked safety lamps or electric torches shall be exclusively used in the work of dealing with or damming off an underground fire:

Provided that where, in the opinion of the manager, it is necessary to take immediate steps to deal with an outbreak of fire, the provisions of this sub-regulation shall be deemed to have been complied with if the workmen engaged in dealing with the fire are provided with approved safety lamps or electric torches as quickly as is reasonably practicable.

(2) During the work of dealing with or damming off an underground fire a cage or cages containing small birds or other means of detecting carbon monoxide gas approved by the Chief Inspector shall be kept at all places in which persons may be in danger from noxious gases.

87H. Approved locked safety lamps or electric torches shall be exclusively used in any ventilating district of a mine in which there is an underground fire whether such fire is sealed off by stoppings or not:

Provided that the Chief Inspector may, in the case of any mine, grant exemption from this regulation under such conditions as he may impose, if, in his opinion, the use of approved safety lamps or electric torches in such mine is not necessary.

87I. (1) In any ventilating district of a mine which is not naturally wet throughout and—

- (i) in which there is an underground fire, whether sealed off or not;
or
- (ii) in which the extraction of pillars is in hand or is about to commence;

the following precautions with respect to danger from dry coal dust shall be taken:—

- (a) All haulage and tramming roads shall be systematically kept clear of accumulations of dry coal dust.
- (b) All such roads shall be systematically treated with water or incombustible dust in such a manner as to prevent an explosion from being initiated or propagated by coal dust. If incombustible dust is used for the purpose, it shall be of a kind which is not likely to be injurious to the health of workmen.

(2) The precautions laid down in sub-regulation (1) shall also be observed at all places within 400 feet of an area—

- (i) which has been or is being sealed off on account of fire; or
- (ii) in which pillars are being extracted.

(3) The Chief Inspector may, by order in writing, grant, subject to such conditions as he may impose, exemption from the provisions of sub-regulation (1) or sub-regulation (2) to any mine or part of a mine on the ground that, on account of the special character of the mine or part, the observance of the precautions laid down therein is not necessary.

87J. In any working mine in which a fire is known or is believed to exist—

(a) adequate precautions shall be taken to prevent the passage of air from the mine through any goaf or through broken strata connected with the fire; and

(b) no work, other than work required by clause (a) of this regulation, shall be done in any part of the mine which is not effectively sealed off from any such goaf or broken strata."

XX. For regulation 93, the following regulation shall be substituted, namely:—

"93. Where a main haulage road extends to a distance of more than 3,000 feet from the shaft or the entrance to the mine, efficient means of telephonic communication shall be provided and maintained between a suitable station near the end of every such main haulage road, the pit-bottom and the surface, or between a suitable station near the end of every main haulage road and the entrance to the mine:

Provided that the Chief Inspector may by order in writing require the provision of means of telephonic communication where in any mine the main haulage extends to a distance of less than 3,000 feet from the shaft or the entrance to the mine, where travelling is unduly arduous:

Provided further that the Chief Inspector may by order in writing permit the use of other suitable means of communication in cases in which the conditions in the mine are not suitable for telephones."

XXI. For regulation 95, the following regulation shall be substituted, namely:—

"95. (1) No person shall permit a tub or tubs to run uncontrolled except with the consent of the manager:

Provided that the Chief Inspector may, by order in writing, prohibit the uncontrolled movement of tubs at any place where, in his opinion, there would be danger of injury to persons.

(2) No person shall ride on any tub, truck or wagon, either under ground or above ground, except with the written permission of the manager."

XXII. In regulation 96A, the words "in which inflammable gas has been found during the previous twelve months or in which there is a risk of inflammable gases entering the mine from an underground fire" shall be omitted.

XXIII. After regulation 101, the following regulation shall be inserted, namely:—

"101A. No liquid oxygen explosive shall be used in any underground part of a mine."

XXIV. For regulations 108 and 109, the following regulations shall be substituted, namely:—

“108. (1) No shot shall be stemmed or fired except by or under the personal supervision of a competent person appointed by the manager by order in writing to be a shot-firer.

“(2) In any mine in which more than 50 persons are employed underground at any one time, no person shall be so appointed or shall perform the duties of a shot-firer who is responsible for making inspections under sub-regulation (2) of regulation 70.

“(3) With effect from the 1st day of April 1940, no person shall be appointed as a shot-firer under sub-regulation (1) unless he holds either a shot-firer's certificate or a sirdar's certificate or a manager's certificate granted under these regulations.

109. Every shot-firer shall, before a shot is fired by him or under his supervision, see that all persons in the vicinity have taken proper shelter at a safe distance; he shall also take suitable steps to prevent any person approaching the shot and shall himself take proper shelter.”
